BY PENELOPE

Mr. and Mrs. Herring Cooper, of the famous ranch, St. Albert, entertained at a jolly house party on Christmas day. The guests included Mrs. Herring, Mr. and Mrs. Harrison, Mr. and Mrs. T. L. Laro, and a few of Mr. Herring's friends. All enjoyed the evening very much. Mrs. Cooper accompanied them. She will visit Mrs. Lane for a few days.

Mr. Fred Robertson and Mr. Chas. Cooper leave on Friday or Saturday for St. Paul and other American points.

The Monarch and Orpheum theatres entertained their employees at a very jolly dinner in the Blue Moon on Christmas Day. Plants and Roman busts graced the table. Afterward there was a Christmas tree and a little play.

Mr. MacCallum has invited his employees to a Christmas tree and bridge party to be given in the Blue Moon this evening.

A very pretty, quiet wedding took place at the home of the bride's mother, Mrs. Elizabeth Meen, 122 St. Paul road, on Christmas day. The bride, Miss Annie, was the eldest daughter, was married to Mr. Roy Wallace of Alton, Ontario, by Rev. Mr. Patterson, of First Baptist church.

The bride, who was given away by her uncle, Mr. Peter McPherson, was beautifully gowned in cream dress.

EXTENSION OF TIME GRANTED SCRIP HOLDERS

Entries for Homesteads May be
Made Under S. A. Warrants
Till Further Notice.

IT MAY BE FOR SIX
MONTHS OR A YEAR

Fourth Extension of Time Since
Scrip Was Issued to S. A.
Veterans.

The time for the location of South African scrip has been again extended. Since legislation was passed granting the right to South African veterans to scrip land, there have been four extensions of time. The time limit was twice extended while the Hon. Frank Oliver was at the head of the Department of the Interior and last year it was extended by the Hon. Robert Borden.

At the end of 1911 it was announced that the new Government would pass legislation extending the time limit for South African scrip, and then the Government refused such extension. Pressure was, however, brought to bear, with the result that the time was extended for a year and it was expected that no further extension would be granted.

The present extension, of which notice has been given to the various offices, is "until further notice." According to a statement made in the House, made by the present Minister of the Interior, the extension may be for either six months or a year.

Entries for homesteads will be accepted from original scrip grantees or their substitutes appointed subsequent to January 1st, 1912. Certificates ordered prior to December 31st, 1911, will not be accepted, except, presumably, on the payment of the \$500 redemption fee.

The number of South African scrips being taken up is now small. At the Edmonton land office not more than one or two a month have been taken up lately. It is probable that time when five per cent. of the scrip originally granted is still outstanding, according to a statement made by the Dominion Land Agent in this city.

Toronto, Dec. 26.—The board of control this morning recommended that the city council be allowed to erect a 17-story hotel of ten rooms on King street West. ADVOCATES UNIONS TO DRIVE OUT DISEASE

Dr. Mary Walker Says They Are Especially Effective Against Smallpox and Quoties Madrid As An Example of Their Use in That Disease.

Chicago, Dec. 25.—The use of plenty of unions will drive, among other things, contagious diseases out of any city, Dr. Mary Walker, who is visiting Toronto, today declared. Here Dr. Walker's address for the use of unions is stored, boiled, fried or raw. Keep the fumes of unions continually permeating the atmosphere, spread unions in the air, on the lawn and any other place where it might appear, and you would do good.

Dr. Walker said unions were particularly effective against smallpox. The use of the vegetables in this city is a kind of union, she said. "Madrid was one of the affected cities," she said. "Some even had made the statement before the unions were used, that the city would be depopulated by smallpox. The union plenipotentiary assured me that the spread of the disease had been halted by the use of unions. They also were used in other cities."

FARMER KILLED BY EXPLOSION OF POWDER

Frank Riley, Who Had Been Working on a Powder Explosive, Is Killed by It in His Barn.

Hamilton, Dec. 25.—Frank Riley, a farmer, was killed by an explosion in his barn near Cuthbert yesterday. For the past three years he had been working on a new explosive which he intended having patented. He had just eaten his Christmas dinner and entered the barn where his wife and five children heard a terrific explosion which nearly demolished the barn. Allie lived only a few minutes.

THE STUMBLING BLOCK TO PEACE IS ADRIANOPLE

Turkey Refuses to Relinquish
Claim to This Great
Fortress.

PEACE DELEGATES MUST
ARRIVE AT COMPROMISE

Saloniki May Be Held Out as a
Bait to Satisfy the
Bulgarians.

London, Dec. 26.—The possession of the Turkish fortress of Adrianople which has been the principal bone of contention since the beginning of the war between Turkey and the Balkan allies still remains at this moment, the real stumbling block in the way of peace. Compensation for Bulgaria, however, in some other part of European Turkey probably will in the end remove even this difficulty, and enable the peace to be reached. Turkey of the great fortress which the allied troops have been unable to hold.

Saloniki has been suggested as a possible bait to induce the Bulgarians to abandon their claims to the northern city which the Turks refuse to yield.

Perhaps with some such idea in their minds the Turkish delegates have, it is reported, included in the counter proposals they have offered to the peace conference the stipulation that Saloniki shall remain in their hands, a line being drawn from that southern point through Serres Adrianople to Midia.

The southern demands of the Balkan allies and the minimum offer of the Turks will thus be before the peace delegates when they assemble again in St. James palace on Saturday and a definite line for bargaining will have been formulated.

If the Turks are successful in retaining Adrianople they will decide to limit their demands to a western boundary running from Adrianople southward along the railroad to Enez on the Aegean sea, thus leaving the Bulgarians strait in their hands. Diplomatic circles here consider there is certain to be a gradual approximation of the excessive terms put forward by the Balkan allies and the Turks and when that stage has been reached third parties may have a chance to intervene in order to reconcile remaining differences between the adversaries.

**CREW OF WRECKED SHIP
HAS THRILLING ESCAPE**

Captain Found Himself Unable to Get Out of Bay and Ran Steamer Toward Shore. Twelve Italian Steamer Trapped in Ice.

By Bulletin Leased Wire.
Penzance, Dec. 24.—The Italian steamer Trapianta, from Genoa to Barry, Wales, was wrecked in Mounts Bay in the extreme southwest of England this afternoon. Twelve of a crew of 25 men had thrilling escapes; the other was drowned.

The vessel was buffeted by ferocious waves from Christmas morning. The captain found himself unable to get out of the bay and he determined to run ashore. The beach was crowded with spectators who were nervous to land and who watched the vessel's last moments in the grip of the wind and tide.

Finally the strange steamer was ported ashore and she dove into full steam, running deep into the sandy bottom. One by one the crew were rescued, to one of which the crowd were left the vessel after which waves were breaking. One of the crew was carried off by a heavy comb.
